Employment History

As a Teaching Assistant, I collaborated closely with teachers to address disruptive behavior in students, implementing agreed disciplinary strategies as outlined by the teacher. This often involved separating students or engaging in calm discussions with disruptive individuals. Additionally, I supervised break times, accompanied students on trips, and provided detailed feedback to teachers on student achievement and progress.

- Helped teachers plan engaging activities and create level-appropriate teaching materials.
- I contributed to lesson planning, created age-appropriate teaching materials, and assisted in managing classroom behavior through positive reinforcement.
- Helped teachers monitor playtime activities during break times.
- I also administered tests, invigilated exams, and performed routine marking.
